

Keratome Blade Blunt Tip

Product Model : **Default Model No**

Category: Ophthalmic Knife, Ophthalmic Instruments,

Summary :

The importance of surgical procedures in ophthalmic surgeries is well known. Keratomes are surgical blades specially designed to perform procedures in the corneal layer of the eyes during cataract surgeries. Our specially designed Blunt Tip Keratome Blades are made with top in the class industry materials which allow safe and secure IOL enlargement and are also designed to give precise incision width for IOL implants. The tips are made blunt to avoid any secondary incisions.

With ISO 9001-2015; ISO 13485-2016 certification and the WHO-GMP compliance we can ensure the best quality and medical safety of our product
