

Male External Catheter Penile Sheath

Product Model : **Default Model No**

Category: Medical Equipment, Medical Disposables, Urology,

Summary :

A Male Catheter is a high-quality medical device designed for effective urinary catheterization in males. Made from flexible, durable materials, it ensures ease of insertion and patient comfort. The catheter features a smooth, rounded tip to minimize discomfort and trauma during use. Suitable for both short-term and long-term catheterization, it is ideal for use in hospitals, clinics, and other healthcare environments. Available in various sizes and configurations, the male catheter provides reliable performance for accurate urinary drainage and management.
