

## Infant Incubator-INC18

Product Model : **INC18**

**Category: Baby Care Equipment, Medical Equipment, Infant Incubator,**

**Legacy of Excellence in Healthcare...**

## Description

- The temp. controlled unit is operated by advanced microcomputer technology.
- The three digital display indications provide the Set Temperature, Air Temperature, and Skin Temperature.
- Two function control modes provide the clinician more flexibility while optimizing the thermal environment.
- In addition, the skin temperature display is larger than the set/air temperature display.
- The removable heater and control unit make it easy to clean and service.
- Full visibility & accessibility of the baby is provided by the design of an acrylic hood.
- A full complement of alarms provides safety convenience, with both audible and visual indicators :
  - Probe Failure
  - Power Failure
  - High Temperature
  - Low Temperature
  - Skin Temperature display can be converted from C to F by the push of a button.
  - A big LCD is provided for more specific information & visualization of the heater power in different modes.
  - The High & Low Temperature alarm settings can be adjusted according to the patient's condition.
  - Humidification is provided with the help of two water trays provided at the back of the unit.
  - Three side trays are provided at the bottom of the unit to keep consumables.
  - The unit rests on four big castors with brakes in the front castors.
- **Optional:**  
Oxygen Delivery System, Electric Slow Suction, CFL Phototherapy
