

Scrub Suit (Tunic & Trouser Set)

Product Model : **HL11**

Category: Medical Equipment, Hospital Linen & Medical Clothing,

Summary :

Scrubs are the sanitary clothing worn by surgeons, nurses, physicians and other medical professionals involved in patient care in hospitals. Our scrubs are designed for use by surgeons and other operating room personnel, who would put them on when sterilizing themselves, or "scrubbing in", before surgery and other hospital personnel. The use of scrubs has been extended outside hospitals as well, to work environments where clothing may come into contact with infectious agents (veterinarians, midwives, etc.) and hence our scrubs are designed to be simple (with minimal places for contaminants to hide), easy to launder, and cheap to replace if damaged or stained irreparably. They come in various colors for both Clinical and Non clinical use and are available in the following sizes: S, M, L, XL and in two quality types: Regular, Deluxe.
