Summary

Looking for a high-quality hinged knee brace? Look no further than GWS Surgicals LLP. Our drytex material knee brace is perfect for those with active lifestyles. It provides support and stability to the knee joint, while still allowing you to move freely. Plus, our knee brace is available at a fraction of the cost of other brands. So don't wait - order your GWS Surgicals LLP hinged knee brace today!

Description

Features: The drytex hinged knee - a neoprene alternative fabric that allows improved airflow, is designed for milk to moderate medial and lateral control. It allows 180 movement, provides excellent compression & support yet allows breath-ability. It is ideal for patients who have allergies or irritations to neoprene or those who like warm weather climates. It has a popliteal cut out design and a patellar donut in front to provide stability to the patella.

Application:

- Ideal for Most ACL, PCL, MCL strains, injuries, and instabilities.
