

Sternal Brace

Product Model : **RHA707**

Category: Medical Equipment, Rehabilitation Supports, Fracture Aids,

Summary :

The Sternal Brace is designed to provide support and stability to the Sternum bone. It is made from high quality materials and is perfect for those who have suffered a sternum fracture or any other injury to the sternum.

Specification :

Features: It has a thick PUF pad that holds and binds the fractured sternum without compromising on the comfort. The strong elastic band gives a good grip and helps in equidistribution of the pressure. The elastic is made up of a monofilament material which allows air ventilation. It reduces post-operative pain and discomfort.

Applications:

- Post CABG (Coronary Artery Bypass Graft)
- Heart Invasive Surgery
