## Description

### DuraLOCK Small Fragment Instrument Set – Eco

The **DuraLOCK Small Fragment Instrument Set – Eco** is a reliable and cost-effective solution designed to support precise fixation of small fragment locking and non-locking plates. Built for everyday orthopedic

use, this instrument set delivers consistent performance while maintaining an economical and practical design—making it ideal for hospitals and surgical centers seeking quality without compromise.

Designed to work seamlessly with DuraLOCK small fragment plating systems, the Eco variant focuses on essential instruments only, ensuring a streamlined surgical workflow without unnecessary complexity. Each instrument is engineered for accuracy, durability, and ease of handling, supporting efficient plate positioning, drilling, depth measurement, tapping, and screw insertion.

## Key Features

- **Compatible with DuraLOCK small fragment systems**
- **Eco configuration** with essential instruments for routine orthopedic procedures
- **Precise drilling and screw placement** for consistent fixation results
- **Ergonomic instrument design** for improved control and reduced hand fatigue
- **Surgical-grade materials** suitable for repeated sterilization and long-term use
- **Well-organized tray layout** to support smooth and efficient surgical flow

## Clinical Applications

- Small fragment fracture fixation
